What it takes to be No.1

by Vince Lombardi

You've got to pay the price.

"Winning is not a sometime thing; it's an all-the-time thing. You don't win once in a while, you don't do things right once in a while, you do them right all the time. Winning is a habit. Unfortunately, so is losing.

"There is no room for second place. There is only one place in my game and that is first place. I have finished second twice in my time at Green Bay and I don't ever want to finish second again. There is a second place bowl game, but it is a game for losers played by losers. It is and always has been an American zeal to be first in anything we do and to win and to win and to win.

"Every time a football player goes out to ply his trade he's got to play from the ground up—from the soles of his feet right up to his head. Every inch of him has to play. Some guys play with their heads. That's O.K. You've got to be smart to be No. 1 in any business. But more important, you've got to play with your heart—with every fiber of your body. If you're lucky enough to find a guy with a lot of head *and* a lot of heart, he's never going to come off the field second.

"Running a football team is no different from running any other kind of organization—an army, a political party, a business. The principles are the same. The object is to win—to beat the other guy. Maybe that sounds hard or cruel. I don't think it is.

"It's a reality of life that men are competitive and the most competitive games draw the most competitive men. That's why they're there—to compete. They know the rules and the objectives when they get in the game. The objective is to win—fairly, squarely, decently, by the rules—but to win.

"And in truth, I've never known a man worth his salt who in the long run, deep down in his heart, didn't appreciate the grind, the discipline. There is something in good men that really yearns for, needs, discipline and the harsh reality of head-to-head combat.

"I don't say these things because I believe in the 'brute' nature of man or that men must be brutalized to be combative. I believe in God, and I believe in human decency. But I firmly believe that any man's finest hour—his greatest fulfillment to all he holds dear—is that moment when he has worked his heart out in a good cause and lies exhausted on the field of battle—victorious." ★

Looking toward the future...

As supplies of natural gas and oil continue to grow scarce, electricity will play an even larger role in meeting the expanding energy needs of our society. That's why Toledo Edison is developing new sources of energy, such as nuclear power, and planning ahead for the power needs of 1990 and beyond.

We're determined to meet this challenge and provide the best possible electric service for your generation and others that follow.

What makes it successful?

It was people then...
People made it go back in the early years of LOF when these young men came from countries with strange sounding names to earn their mark in the new world.

Today it is still people...
Today the sons and daughters, grandsons and granddaughters, still make private enterprise go in America.

EXIT

It isn't ever the same.
In TIME, I'll change. And you.
And the currents of our lives.
But the image of this moment will never fade.
This moment, and you, are unforgettable.
